Online learning system requirements

The following outlines the essential system requirements for users of the RuralBiz Training online learning environment. Using hardware below the minimum requirements or incorrect versions of software applications could produce unpredictable results such as information being unreadable or not visible.

Microsoft Windows Operating system

Windows XP Home, XP Pro, Vista, Windows 7

Microsoft Windows Hardware

IBM compatible with processor (CPU), memory (RAM), graphics display and hard drive capacity meeting operating system minimum requirements

Microsoft Windows Web browser

Internet Explorer 7 or later (version 8 must be run in compatibility view*)

Mozilla Firefox 2 or later

Other essential requirements

Internet access, ideally broadband with a download speed > 256kbps

Enabled audio devices (speakers and microphones)

Adobe Flash Player 10, Adobe PDF Reader 8.0, Adobe Shockwave Player (available as free download)

Microsoft Word 2003 or later, or a compatible word processing program

Microsoft Excel 2003 or later, or a compatible spreadsheet program

Headset (USB style strongly recommended)

Additional software and hardware

The following items may be required to fully participate in the online environment:

USB web camera and hardware drivers

Voice recording and playback hardware devices must be enabled on the computer

Macintosh and other platform users: Usually users of these platforms are able to access our online learning system without difficulty. However, please note we are unable to provide support for any platforms other than windows

Note: Some functions may not work using the following web browsers

Macintosh Safari and Macintosh Internet Explorer

Netscape 7.0 or older

Opera (all versions)

In IE8, select Compatibility View from the Tools menu
